

# Invisalign End of Treatment Consent

Name: \_\_\_\_\_ Date: \_\_\_\_\_

I am happy and satisfied with the current position of my teeth from my Invisalign treatment and choose to stop active movement. I acknowledge and understand the need to wear retainers every night if I want my teeth to retain their position. Bonded wires maintain the position of only the teeth that the wire is bonded to and don't maintain the position of other teeth in the arch. A retainer that goes over the full arch for optimal retention is always recommended to keep teeth from relapsing and aids a backup in case the wire dislodges.

I have been given the option to purchase additional sets of retainers for backup at a discounted fee, applying the cost of 1 set of included retainers to the cost of 4 sets of retainers, however the cost of replacement retainers will be at our regular cost, should I choose to wait and purchase later.

I understand the need to replace clear retainers at a minimum of every 2 years and the consequences of not doing so. Finally, I understand the benefits of backup retainers and the risks to having only one retainer, including the cost to realign if they relapse from not having back up retainers.

## 425 Dental Invisalign Retainer Options:

- 1 set of upper/lower clear retainers - (included in treatment cost for 425 Dental Invisalign patients)
- Lower bonded wire \$0 (included in treatment cost, normal cost \$200)
- Upper bonded wire \$0 (included in treatment cost if space allows for placement, normal cost \$200)
- 4 sets of upper/lower clear retainers - \$495 (\$1,600 value, normally priced at \$895. This special pricing applies the value of your included retainer towards the bundle upgrade.)
- Other: Upper: \_\_\_\_\_ Lower: \_\_\_\_\_ \$ \_\_\_\_\_
